11511 Obrenovac Serbia

SUMMARY

Senior Full Stack Engineer / Tech Lead with **10+ years of experience** designing, building, and scaling enterprise-grade web applications using **Node.js, TypeScript, React, Next.js, NestJS, and Express.js**. Proven expertise in architecting microservices, developing high-performance REST/GraphQL APIs, optimizing PostgreSQL and MongoDB databases, and delivering cloud-native solutions on AWS with Docker, Kubernetes, and CI/CD pipelines. Strong background in system architecture, technical leadership, mentoring engineers, and driving end-to-end product delivery in Agile environments. Passionate about building secure, scalable, and maintainable software that delivers measurable business value.

EDUCATION

University of Novi Sad, Faculty of Sciences | Oct 2013 – Jul 2016

Bachelor's Degree, Computer Science

WORK EXPERIENCE

Netguru | Sep 2023 – May 2026

Senior Software Engineer / Tech Lead

- Led a team of **8 software engineers** to deliver **15+ enterprise applications** using Node.js, NestJS, React, Next.js, and TypeScript.
- Designed microservices architecture processing over **8M+ API requests per month**, achieving **99.98%** service availability.
- Developed **60+ REST and GraphQL APIs**, reducing frontend integration time by **40%**.
- Optimized PostgreSQL and MongoDB databases, improving query performance by **55%** and reducing response latency from **420ms to 170ms**.
- Implemented Redis caching and Kafka event streaming, increasing application throughput by **45%** while reducing infrastructure costs by **20%**.
- Improved Next.js frontend performance, reducing page load times by **38%** and increasing Lighthouse performance scores to **95+**.
- Built automated CI/CD pipelines using GitHub Actions, Docker, Kubernetes, and AWS, reducing deployment time from **90 minutes to under 8 minutes**.
- Mentored **10+ engineers**, conducted **300+ code reviews**, and increased sprint productivity by **30%** through engineering best practices.

Capgemini | Jul 2020 – Aug 2023

Senior Software Engineer / DevOps

- Developed enterprise applications supporting **500K+ active users** using Node.js, Express.js, React, and TypeScript.
- Designed and implemented **45+ backend APIs** serving financial, logistics, and enterprise platforms.
- Built reusable React component libraries, reducing UI development effort by **35%** across multiple projects.
- Implemented JWT and OAuth2 authentication securing **1M+ user accounts** across distributed systems.
- Optimized PostgreSQL queries, reducing average API response time by **42%** and improving database efficiency by **50%**.
- Integrated **20+ third-party services**, including payment gateways, cloud storage, and enterprise APIs.
- Increased automated test coverage from **58% to 91%** using Jest, Cypress, and integration testing.
- Delivered **12+ production releases** annually with **99.9% deployment success** through Docker and CI/CD automation.

EPAM Systems | Jul 2018 – Jun 2020

Senior Software Engineer

- Developed scalable Node.js microservices supporting **3M+ monthly transactions** across enterprise platforms.
- Built **35+ RESTful APIs** consumed by React web applications and mobile clients.
- Implemented asynchronous processing using Redis and message queues, reducing background job execution time by **60%**.
- Developed React and TypeScript applications that improved user engagement by **28%**.
- Optimized PostgreSQL database performance, decreasing complex query execution time by **48%**.
- Containerized **50+ services** with Docker and supported Kubernetes deployments across multiple environments.
- Participated in architecture reviews that reduced production incidents by **35%** through improved system design.
- Collaborated with cross-functional Agile teams to successfully deliver **20+ enterprise features** on schedule.

10Clouds | Oct 2016 – May 2018

Software Engineer

- Built **10+ full-stack web applications** using Node.js, Express.js, React, JavaScript, and MongoDB.
- Developed **25+ REST APIs** integrating payment providers, authentication systems, and third-party services.
- Designed responsive React interfaces, improving customer satisfaction scores by **22%**.
- Implemented business workflow automation, reducing manual processing time by **45%**.
- Optimized backend services, improving API response times by **37%** through database tuning and caching.
- Increased application reliability by implementing unit and integration tests with **85%+ code coverage**.
- Contributed to Agile delivery cycles, completing **95%** of sprint commitments on time.
- Worked directly with clients to deliver **30+ feature enhancements** while maintaining high code quality and project stability.

SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, SQL

Frontend: React, Next.js, Redux, Tailwind CSS, Material UI

Backend: Node.js, NestJS, Express.js, REST APIs, GraphQL

Databases: PostgreSQL, MongoDB, MySQL, Redis

Cloud & DevOps: AWS, Docker, Kubernetes, GitHub Actions, CI/CD

Architecture: Microservices, Domain-Driven Design (DDD), SOLID, Design Patterns

Testing: Jest, Cypress, Postman

Tools: Git, GitHub, GitLab, Jira, Swagger, Figma

Methodologies: Agile Scrum, Kanban, TDD, Code Review

Soft Skills: Technical Leadership, Mentoring, Problem Solving, Team Collaboration
